pairs" is inawing upon us, we hope they will not fall to learn the facilities our paper afforts them but at one awall thouselves of its advantages which surpressnything in its former history.

It is amuslug to see the oor used jumb e of an f-stulifications into which the Know-No. b ing organs have gotton. They started out to prove that the Democratic party were not to be trusted on the slavery question; that they were the simm pure; that Buchanan's name was a -tached to a set of anti-slavery resolutions, pass of at a town meeting, some thirty or forty years ag . that although he was an uncompromi ing advocate f r the annexati of Texas, he was renotwithstanling he was no admirer of stave y There ended the record against Buchanan, and it was ridiculous on ugh, against a long C ngr ssie al record, v bore he was true to the rights o the States, in every aspect in which the question was presented.

I: was an np-hill business to as all Buehanar with su h a record, and the indersement of old Virginia to back it. Besides, the record of their candidate, and his supporters, was precisely the opposite of Bushanau's. Fillmore had a home, as v 11 as a Congresional record; and it was on r par with that of G. Idinge, Slade & Co. His party were dedging from pillar to post, to escape this c'avery questi n somehow, and fix up something upon we ch they e uld win. A change of the ic ras needed; so it was juiged expedient to charge cont, and charge that the Democracy were Bout ern sectional party, with Buchanan at it head. Thi, of c urse, refrited the previou stor. It was ille to was so ink and paper about the anti slavery character of the D moora is party, if i were a Southern sectional party. It would be just as absurd as to charge that Fremont was s pro-slavery man. This being the case, the wire workers cast about to see how to get along with a be ter prospect. To raise the bowl of a sec thera' parly against the Damocracy, and transform tremeders into a compremising Union parts pr. ands me" ing, and riers were given a " r. ing y. A yell ag . . trectional parties will rie d and he Democracy were the Southern sections

A city paper, that had wasted its offerts to show that its party was the same Southern party, pu forth four columns of pon lerous twaldle, to prese the full h would not sub it to the Presidency of a for i art man, elected by a sectional vote, and plel ei to ensection, in no thiry to the other t di's't me ke any d'ference to t is pap r, tha its odit r had expressed substantially the same how a condemning himse f. It made no differmee, that his great and para patriotic candidate had expressed the same quinion, in the mos pointed and emphatic terms. A modern Know Nothing invention cures all these difficulties. I is only necessary to change mames, and turn up under another aspect, and then declare oneself no longer responsible for the broken promises and vio la'ed pleface of the old parties.

But the o mice! part is th's: the little organare con'used and puzzled. They put one for foremore, and then the other. They charge the Democracy with being a Southern sectional party and in the es a chaot charge that it is an an'! alavery party. We believe the grand organ o this city has not given orders sufficiently distinct so that the smaller brothren can understand the command-to the right sb ut face.

If these lesser lights will just listen to us a little, we shall set them right. We see exactly what is the matter. First, their Know-Nothingism has fizzled out. The fear of the Pope, the horror of Datch and Irish, are to be laid aside, along with the treasurable and odious organization of the last year or two. They are to be kent only for emergencies and particular localities. Generally, the whole concern is to be transformed now int. a great (7) UNION PARTY. It is important, therefore, now, not to be nice about the slavery question. They must be accommodating and compromiring. They must stop their clatter, and quit their appeals to the [assionr, prejudices, and inthat the Democrats are a Southern sectional uncompremising party, that intend to dissolve the Union. Let them now heed what we say, and not subject themselves to the derision of all men of throw such salf-contradictions before the people. The thing is impossible; all men see it. So it is very indiscreet to jumble the two things together on the same page. Will the organ re-publish this explanation, for the benefit of his brethren who are confused and puzzled; or if he can better it, let him do so. It is painful to see the wrigglings of the little organs. They have not got the right cus evidently. Had they not better call a convention, transform themselves into a Union party new, and withdraw Fillmore; as he will not do after his Albany speech?

There were the whote brethren. But here is an authority they directly in the presidency of the year of question:

"But this is not all, sir. We see a political party presenting candidates for the Presidency and Vice presidency all certain from the free States alone, with the avowed parpuss of electing their candidates by auffrages of one part of the Union of the bepassible that these who are engaged in such a measure can have acrously refrected upon the consequences which must investibly follow in case of success? Can the possible that these who are engaged in such a measure can have acrously refrected upon the consequences which must investibly follow in case of success? Can the possible that these who are engaged in such a measure can have acrously refrected upon the consequences which must never the whole the possible of the possible of the presidency and vice presidency all they date to question:

The Abolition stathat roted against the compressi e mea mos were first rate 1 a.i nal men, for some Southern mon votal against these

measures-ultra Southern mon they were, too. Now, what is the use of trying to humbug the world with such stuff? Fillmore does not deny his former acti-clavery opinious, nor bis antislavery action. He represented an Abolition constituency, and sympathized with their views and purposes. No man in Congress could be counted on more certainly by the anti-slavery party, in any important movement they had to make.

Bn. Mr. Fillmere has since turned a short corner. We craut he approved the compromise measures of 1850, and the fugitive slave law. He has since For the State at large-HON ELIJAH HISE, done worse or better than that. Read elsewhere ad COL. JOHN W. STEVENSON. what he said about a sectional marty. That makes what he said about a sectional party. That makes a gulf between him and the Abelitionists. They hate and denounce him for this declaration, and his acts of 1850. Unfortunately, Fillmore's party in the free States have no such aversion to sectionallsm. They are everywhere uniting with it, to Abolitionize the federal government, whilst his friends South are striving duity to bridge over the gu'f between him and the Abelitionists. Fillmore's position now is much better than meet of his party, even in the S uthern States. We say that Me. Fillmore was an Abolitionist, before he pasame Pros dent of the United States; but in that office he disappointed the Abolitionists, by is conservative, and we will add, patriotic course. In this denunciation he gives all the weight of his influence to the party he denounces; for the Kansas ques-

Now, if Fillmore can turn a sumerset, and disapo'n, his former Abelition supporters, denounce a ectional party, and indoree, at the same time, hour stick in trade, privately, and without notice ait his old party, in which he attained all his aurals, and j in a new one, built upon its ruins and corruptions; swear to prescribe foreigners and Catholics, contrary to the crued of his political to; what will be do if elected by such a party s he now heats?

The editor of the Democrat has raked up extract from our biography of Mr. Clay, written and published upwards of a quatrier of a century ago, when we were a citize; of New England, to show, not that we were it favor of abolishing, lavery, but that we then though slavery a very bid thing. Undoubtedly we did think thas of fit we had at that lime seen no uerson that hought, or seemed to think, differently. "WILMOT PROVISO.—" But in point of fact, the
Wilmot proviso presents no difficulty, for it raises no
question. The question of Slavery to arise in the new
territory acquired, does not appertain to the General
Government, either in its treaty or law-making power.
The territory, in regard to Slavery, will take and hold
that character with which it comes within the boundary
of the United States until States of the Union are catablished therein, and then those States will determine
the question of free or alave labor. When Louislans
and Texas were annexed, Slavery was lawful, and the
lustitution continued. In other territory In which new
States have been formed Slavery did not exist, and
therefore Slavery was not legal there while the territory was under the Jurisdiction of the Union, and it has
not been established by those States aince their admir

general law, Slaves taken into it after it is acquired by
the United States will. In contemplation of law, be

judge would be bound to declare them free."

"Heretofore the Northern Leanfocos have tamaly submitted to all requisitions imposed on them by their southern brethren. They have submitted to such unrender of their own views for the sake of large only and the saces of the party. The South has always maintained an uncompromising attitude, and declared listed numbling to make any secritices for the sake of the party. In the Convention of 1844, the Southern deleasts required the ascribe of hir. Van Buren, whose friends somposed a majority of the members of the Convention. The South was stubborn out the point, and the North, after a little resticasuess on the subject, submitted, and van Buren was thrown overbaard. Farness would require that the Southern delegates should sacrifice their preductions in the Convention this year, but Alabama and Virginia have, in alvance, declared they will not do so, and have further said that if the Northein delegates will not do their bidding, they will rebol sgainst the nomination. If any breadent of the United States were to put his veto upon the Wimot proviso, the people of the non-slaveholding States, who have the sopremacy of members, would put the question of agitation into the uext Presidential election, and then, by their strength as a sectional and geographical pairy, elect men who will not yet of the proviso.
